Brain Health and Healthy Aging

No score and no promise

This guide does not test memory. It does not diagnose dementia or any other condition. It does not promise a longer life. A quiet day is not a decline.

Public pages discuss sleep, movement, learning, and time with other people as parts of everyday life. lifeZoi keeps those as ideas you can try, not as a program with a result.

Four small ideas

Choose one. Leave the others.

- A walk, or a chair movement if walking is not available
- A conversation, a letter, or a shared meal
- A page of a book, a song, or a puzzle you already like
- One sleep cue you can keep, such as a dimmer room

Educational only. lifeZoi does not diagnose, treat, or promise a result.
It does not promise a longer life.
