Nature and Well-Being

Outside is optional

A window is daylight. It is not the same as time outdoors, and it still counts as a way to notice the day. A doorway, a bench, or a short walk are other options. Skip unsafe ground, traffic, and weather that does not suit you.

Nature does not treat a disease. The Nature section of lifeZoi says this at more length, including sun safety.

- Sit where daylight reaches you.
- Notice one tree, plant, bird, or patch of sky.
- If you go out, use shade, clothing, and the sun-safety steps on the Nature page.
- Come back in when you want. There is no required number of minutes.

Educational only. lifeZoi does not diagnose, treat, or promise a result.
It does not promise a longer life.
