10-Minute Daily Stretching

How to use the ten minutes

Move only in a range that feels easy. A longer stretch is not better. Every part has a seated option. Skip any part.

Stop if something hurts, makes you dizzy, or does not fit a limit from your clinician. This is education, not a personal exercise plan.

- Minute 1. Sit or stand tall and take a few ordinary breaths.
- Minute 2. Circle the shoulders slowly. Stay seated if you like.
- Minute 3. Turn the head a little to each side. Do not force the neck.
- Minutes 4 and 5. Reach one arm up, or reach forward to a table. Switch sides.
- Minutes 6 and 7. Circle the ankles while seated. If you stand, hold a counter and ease one heel down only if it does not hurt.
- Minute 8. Sit and turn the chest gently, hands on the chair.
- Minute 9. Open and close the hands slowly.
- Minute 10. Sit and breathe in an ordinary way.

Safety

This is not a treatment for a joint, back, or nerve condition. Chest pain, dizziness, or trouble breathing means stop and get urgent help, not another stretch.

Educational only. lifeZoi does not diagnose, treat, or promise a result.
It does not promise a longer life.
